

Exhibit B

WTDF Covid-19 Isolation Unit Procedures

High Risk Housing Plan:

- Male detainees will be housed in [REDACTED]
- Female detainees will be housed in [REDACTED].

Staff:

- Designated staff will be assigned to the units.
- **ONLY THESE STAFF WILL BE ALLOWED ENTRY INTO THE UNIT.**
- All staff assigned to work in the facility will be screened prior to contact with any detainees/offenders.

Screening:

- Designated staff will have their temperature taken daily
- Designated staff will answer and clear symptom screening questions daily

PPE:

All staff entering and working in the isolation unit will at a minimum don the following PPE.

- N95 masks
- Nitrile gloves

At the end of each shift, all waste material will be disposed of in biohazard bags, following infection control practices in policy/standards (e.g., double-bagging).

Medical:

- At a minimum, one LPN will be assigned to provide on-site medication administration and conduct daily rounds (e.g., check on patients, collect Sick Call requests, respond to urgent health care needs, etc.)
- An RN will be assigned to complete Sick Call Assessments in the unit
- Provider assessments (doctor sick call, health appraisals, chronic care, etc.) will be conducted in the unit
 - Privacy will be maintained during clinical encounters.
 - Designated staff will wear N95 masks and nitrile gloves
 - Designated staff will have their temperature taken daily
 - Designated staff will answer and clear symptom screening questions daily

Supplies

- Medical will stock a cart with supplies that can be placed in the housing unit sally port so that staff entering the unit can don PPE prior to entering the unit.
- Proper storage for disposal of PPE will also be placed in the sally port of the unit for disposal and removal of the PPE.

Isolation Unit Procedures

Cleaning:

- Conduct (2)-hour cleaning schedule- utilize in-house porters
- Emphasis on all hard surfaces, doors and door handles

WTDF Covid-19 Isolation Unit Procedures
